

Thank you to those who participated in the School Advisory Council's Parent Survey. Unfortunately we would have liked more responses, with only 79 surveys completed for the school. Nonetheless, the summary of your feedback is below.

- Overall, more than 90% of our survey respondents are satisfied with their experience and would recommend our school to others.
- Strengths centered around our Catholic identity, the sense of community in the school, and the strength of our staff and teachers.
- Top improvement themes fell into 1) Communication (e.g. changes to weekly envelope), 2) Enrichment (Art/STEM), and 3) Special Education Needs

We will be working on actions to build upon our strengths and address improvements through updating our Strategic Plan. We will provide updates to you as those actions are developed. Thanks again for your feedback and please reply with any questions or comments.

Sincerely, The School Advisory Council
