

Part of being a Stewardship parish means that we share our time and talent, and we ask you to consider assisting with a home renovation project. In the future we might have both an assistant pastor and a resident priest, much like when Fr. Steve Emmanuel was here, so we will be updating the house next door to the pastor's home. Under the expert direction of Mr. Bill Heese, we will transform the current one bathroom, three bedroom house into a home with two bathrooms and two two-room suites. There will also be an extra bedroom for a guest priest.

Mr. Heese is looking for volunteers who are able to provide advice and to work in the following areas: electrical, plumbing, wood floor refinishing, insulating, framing, dry walling and painting. It would be nice if you were available to assist Mr. Hesse during the day, but it might also be possible to work on your own during evenings and weekends. Please consider sharing your gifts for this project. Please feel free to contact Bill at bheese@saintcolumbkille.org or by calling him at (402) 616-4740.
